I am a highly organized, strong communicator who eagerly and aptly learns, bringing enthusiasm, passion, and dedication to the workplace. I am efficient, competent, adaptable, and can skillfully manage and resolve various work challenges. My research interests focus on fashion and costume history, particularly the cultural and social implications of dress. I am especially interested in how fashion and dress shape identity, exploring the complex relationships between sexual and gender identities, culture, politics, and race. I am highly motivated and interested in securing a position where I can apply my research skills to contribute to organizational growth.

WORK EXPERIENCE

The Underpinnings Museum, Remote- Brooklyn, NY
